

# Healthy Volunteers Needed for Research on Multiple Sclerosis.

We are studying cognitive processing speed (i.e., how quickly you can think) and developing a novel measure to assess deficits in individuals with multiple sclerosis.

## You May Qualify If You

- Are over 18 years of age
- Can speak and read English
- Not pregnant
- **Do not** have a diagnosis of multiple sclerosis or a history of neurological or psychiatric disorders

## Potential Benefits

Participating in this study may help develop a novel test of cognitive processing speed.

## Participation Involves

- One in-person visit that will last about 20 minutes.
- Visit will involve two cognitive tests and one brief questionnaire.

**Location:** Conventus Medical Center, 1001 Main Street, Buffalo, NY 14203

Participants will not be compensated.
